

## PROGRAMS

### Undergraduate Programs

The College of Nursing offers a non-direct entry four year Bachelor of Science in Nursing program consisting of a pre-professional year, followed by three years of nursing education. We also offer a Post-Degree Bachelor in Science in Nursing option for those students who have already completed a baccalaureate degree, or have made significant progress toward a degree in another field.

#### Bachelor of Science in Nursing (BSN)

#### Post-Degree Bachelor of Science in Nursing (PDBSN)

### Graduate Programs

The College of Nursing offers a variety of graduate programs for registered nurses to advance their nursing career. Students can study at one of our campuses or take their program online.

#### Master of Nursing (MN) Professional Practice (Course-Based and Thesis)

#### Master of Nursing Primary Health Care Nurse Practitioner (NP)

#### Postgraduate Degree Specialization Certificate Primary Health Care Nurse Practitioner (NP)

#### Doctor of Philosophy in Nursing (PhD)

## HIGHLIGHTS

### Interprofessional Learning

USask has the largest cluster of health science disciplines in Canada with six colleges and three schools. Our students, faculty, and staff are encouraged to collaborate with other health science disciplines, such as Medicine, Pharmacy, and Public Health. This encourages collaboration among interprofessional teams to investigate and solve health problems both locally and globally.

### Learn Where You Live

USask College of Nursing uses a distributive learning approach, enabling both undergraduate and graduate learners to learn where they live. By using unique and innovative technology to support teaching and learning distributively, USask College of Nursing is able to offer programming at nursing campuses in Regina, Saskatoon, and Prince Albert, as

well as, at sites in La Ronge, Île-à-la-Crosse, Lloydminster, Yorkton, and North Battleford.

### Indigenous Student Success

The College of Nursing has a long history of Indigenous student success and is recognized as having the highest number of self-declared Indigenous nursing students in the country. The University of Saskatchewan Community of Aboriginal Nursing (UCAN) supports Indigenous students in the College of Nursing.

### Research

The University of Saskatchewan is one of Canada's top 15 research intensive universities. The College of Nursing plays an active role in the university's strong research culture. Working together, we are tackling some of the most pressing health-care issues and leading innovations in health-care education. Our faculty have been awarded provincial, national, and international funding and have forged

strong alliances with community partners and researchers around the globe. They are recognized as leaders in their fields of research and professional practice and for their contributions to advance the health of Canadians.

The College of Nursing is currently recruiting a Canada Research Chair (Tier 2) in Refugee and Migrant Health Promotion and Integration. The Chair will contribute to delivering safe, cultural responsive and quality healthcare to refugees and migrants, playing a vital role in ensuring these populations are better positioned to engage in all aspects of Canadian society free from unresolved issues of equity and inclusion.

### The College of Nursing's signature research areas include:

- Community-engaged health and nursing research
- Health equity research
- Innovations in health systems and education research
