IMMUNIZATION REQUIREMENTS

GENERAL INFORMATION

- The University of Saskatchewan requires that all students attending a Health Science College provide documented proof of immunization.
- All nursing students are required to complete the recommended immunizations for health care workers as outlined in the [Saskatchewan Immunization Manual, Chapter 7 Section 6.3](#) (available online at: www.ehealthsask.ca/services/manuals/Pages/SIM.aspx) prior to any contact between students and patients/clients.
- Students are required to submit to the College of Nursing proof of immunizations prior to participation in clinical experience.
- Failure to maintain recommended immunizations may delay a student's progress in their studies.
- Specific immunizations will be required for certain clinical placements and in specific circumstances such as disease outbreaks. Students who refuse or are unable to comply with this requirement may be at risk of not being able to complete required components of their program.
- Any applicable costs of immunization are the responsibility of the student.
- **CONSENT FORM BELOW:** Immunization records and/or serology results will be shared from Student Wellness and/or the Nurse reviewing your records with your College and clinical placements throughout your studies as required – this is to ensure your safety and the safety of your clients. You are required to sign a consent form to authorize sharing of this information.

IMMUNIZATION INSTRUCTIONS

1. Review Specific Immunization Requirements below.
2. Locate your childhood and adult immunization records. If you do not have these records, contact your Public Health Unit or Family Doctor.
3. Send a **copy** of your **Consent Form (see pg 5) AND Immunization Records by August 15** (earlier is better if you can) to

Email – nursing.immunizations@usask.ca

4. You may choose to see your Family Physician to begin and/or complete your immunization review.

SPECIFIC IMMUNIZATION REQUIREMENTS

Tetanus/Diphtheria (Td):

- Primary series of 3-5 doses, then a booster every 10 years

Pertussis:

- Primary series and adults are encouraged to have a Td booster with the pertussis component once in their adult lifetime. Some colleges mandate this.

Polio:

- Primary series, booster if travelling in endemic areas

Measles, mumps, rubella (MMR):

- Proof of immunity by serological evidence (please attach) OR by documented proof of vaccination with **2 doses** of measles, mumps and rubella.

Tuberculin skin test (TST):

- Initial base line skin test required prior to client contact
- If there is a history of a positive Tuberculin, a CXR is required.

Hepatitis B:

- A series of two or three doses followed by an antibody check
- If you have already received the series, lab evidence of immunity is required (please attach).
- If the Hepatitis B Surface Antibody is non-immune (0 mIU/ml), a Hepatitis B surface antigen test must be done. If the antigen test is positive, consult your Health Care Provider. Refer to your specific College Policy for guidelines regarding clinical practice.
- If the antigen test is negative, (and antibody non-immune); revaccination and reassessment for immunity must be done.
- **Note:** if you do not currently have your Hepatitis B immunizations you should begin this series as soon as possible, as it takes several months to complete.

Varicella (Chickenpox)

- Serological evidence of immunity (please attach) OR proof of one or two doses of varicella vaccination

Influenza

- Recommended annually

COVID-19

- Strongly recommended

Nursing Immunization Requirements Consent

I agree to comply with all immunization requirements of the University of Saskatchewan. I give consent for my immunization records and/or serology results to be shared with my college, clinical placements, and administrative staff, as appropriate.
