

Background

The Health Sciences Placement Network (HSPnet) is a secure web-based system that is used by several provinces in Canada. The HSPnet system contains information about students in clinical placements within health agencies and other placement sites. Students authorize their educational program to use and disclose their Personal Information (name, student profile) and to use (but not disclose) their Personal Health Information via HSPnet for the purpose of locating and coordinating placements as required for their educational program. This document provides a summary of the national HSPnet Policies relating to the protection of student information within HSPnet. The full Policies can be viewed on the HSPnet website at www.hspcanada.net.
